OTTOMAN STOOL No. 2.

The above engraving shows the finest Ottoman, in design and finish, ever offered to the trade. It is made of solid walnut, oil finished, with polished French walnut panels. It is tastily engraved and gilded. It is upholstered with spring seat and puffed edges, and covered with plain plush, (green, crimson, maroon or blue,) and edges puffed with a contrasting color. In fact, the whole material and work on this Ottoman are of the very best.

PRICE, $18.00.

We also make the above design in imitation of rosewood, without the gilding and ornaments, and upholstered in the same style as No. 1, at the same prices as No. 1.

Circular Issued June 1, 1880.

IN presenting our new Price List to the trade, we desire to thank our customers for their past liberal patronage, and to assure them that we shall try to deserve a continuance of their trade, by giving them the best article that can be afforded for the money, and by dealing with them in a spirit of fairness and liberality. Our prices will always be as low as those of any other manufacturer, and at the same time we shall try to turn out a better quality of work. As will be seen by this circular, we have added two new styles of stools to our list, Nos. 9 and 10, and have changed the design of Nos. 5 and 8, and at the same time have reduced the prices on nearly all styles.

We would call special attention to our new design, No. 10, which is a very handsome stool, and the most solid and substantial stool in the market, being made of nice grained walnut, with polished French walnut panels and engraved lines, gilded. This stool has four legs or feet, and the pillar also rests on the floor. The seat is framed, with French walnut panels, and is in size 14x18 inches. No. 9 is the same in design as No. 10, but is made of maple, nicely grained in imitation of rosewood. Stool No. 7 is conceeded by all who have used them to be the most handsome designed Iron Foot Stool in the market, for the price. As we propose to make this stool a leading article, we have *patented the design*, and made the prices exceedingly low.

We would also call attention to our two styles of Ottoman Piano Stools, and two elegant designs of Canterburys or Music Stands. Our No. 2 Ottoman, is without doubt, the finest article of the kind ever offered to the trade, and in fact, the same may be said of our Canterburys.

As will be observed, we have made no reduction on the styles Nos. 4 and 6, as it would be impossible to do so and keep up the quality of the stool in *material* and workmanship. Should any of our customers desire these styles gotten up in a cheaper manner, we will make them *to order* at the lowest possible prices, but will not advertise them or keep them in general stock.

By examining our circular, it will be seen that we give a larger assortment of Piano Stools, &c., in design and quality than any other manufacturer, thus affording the dealer the advantage of purchasing his complete stock in this line, at one place, and consequently at more advantageous rates than if purchased of several different parties.

All our Stools are well finished and are made strong and durable. Our finer grades of Stools, &c., cannot be excelled in material, workmanship and finish. We use nothing but the *Pawtucket Hair Cloth*, and a good quality of Reps and Figured Plushes. Our *Plain Plushes* are all *pure Mohairs*, worth from $3.50 to $4.00 per yard, while most manufacturers use wool plushes, worth from $1.50 to $2.00 per yard.

All stools are wrapped in paper and packed with straw, in boxes, in a very compact shape, for which we charge the following prices:

For 3 to 4 Stools,	$ .50
For 5 to 7 Stools,	.75
For 8 to 9 Stools,	1.00
For 10 to 12 Stools,	1.25
